IMPEGNO SOSTENIBILITÀ

SUSTAINABILITY COMMITMENT / ENGAGEMENT POUR LA DURABILITÉ

“Anche se sapessi che il mondo finirà domani, planterei comunque un albero oggi”

“If I knew that the world would end tomorrow, I would still plant a tree today”

“Si l'on m'apprenait que la fin du monde est pour demain, je planterais quand même un arbre”

(M. Luther King)

have been planted in Kenya, Cameroon, Ecuador, Tanzania and Guatemala, but we will not stop there, the forest will grow over time.

What fruits will the Gaia forest bear? First of all, with the first trees planted, it will absorb 82,250 kg of CO2 in the atmosphere, and then it will also support local communities by creating jobs and producing food to feed them. The cohesion between the two ecosystems, the environmental and the social, will over time contribute to a virtuous circle of sustainability.

Kapriol a choisi Treedom® pour une collaboration visant à construire un monde plus durable. Et la forêt Gaia est née : 400 arbres ont été plantés au Kenya, au Cameroun, en Équateur, en Tanzanie et au Guatemala, mais nous ne nous arrêterons pas là, la forêt grandira au fil du temps.

Quels fruits portera la forêt Gaia ? Tout d'abord, avec les premiers arbres plantés, elle absorbera 82.250 kg de CO2 dans l'atmosphère, puis elle soutiendra également les communautés locales en créant des emplois et en produisant des aliments pour les nourrir. La cohésion entre les deux écosystèmes, l'environnemental et le social, contribuera au fil du temps à un cercle vertueux de durabilité.

Kapriol ha scelto Treedom® per una collaborazione che avesse come obiettivo costruire un mondo più sostenibile. Ed è nata la foresta Gaia: sono 400 i primi alberi piantati in Kenya, Camerun, Ecuador, Tanzania e Guatemala, ma non ci fermeremo qui, la foresta crescerà nel tempo.

Quali frutti porterà la foresta Gaia? Innanzitutto con i primi alberi piantati assorbirà 82.250 kg di CO2 presenti nell'atmosfera e poi darà anche sostegno alle comunità locali attraverso la creazione di posti di lavoro e la produzione di cibo con cui nutrirle. La coesione tra i due ecosistemi, quello ambientale e quello sociale, contribuirà a dare vita nel tempo a un circolo virtuoso di sostenibilità

Kapriol has chosen Treedom® for a collaboration aimed at building a more sustainable world. And the Gaia forest is born: 400 trees

Kapriol ha scelto Thermore® per le imbottiture dei suoi piumini per contribuire alla salvaguardia dell'ambiente. Infatti Thermore® già negli anni '80 per la realizzazione delle imbottiture utilizzava fibre derivate da bottiglie in PET e oggi, grazie a tecnologie innovative, realizza imbottiture con materiali alternativi e sostenibili senza che ciò vada a scapito della performance e senza rinunciare all'effetto "piuma"

Kapriol has chosen Thermore® for the padding of its jackets to help protect the environment. Back in the 1980s, Thermore® used fibres derived from PET bottles to make its fillings, and today, thanks to innovative technologies, it makes fillings from alternative, sustainable materials without sacrificing performance or the "down" effect.

Kapriol a choisi Thermore® pour le rembourrage de ses vestes afin de contribuer à la protection de l'environnement. Dans les années 1980, Thermore® utilisait des fibres dérivées de bouteilles en PET pour fabriquer ses rembourrages. Aujourd'hui, grâce à des technologies innovantes, elle fabrique des rembourrages à partir de matériaux alternatifs et durables, sans sacrifier les performances ni l'effet duvet.
